Prospective investors should pay particular attention to the fact that our Company is incorporated under the laws of India and is therefore subject to a legal and regulatory environment that may differ in certain respects from that of other countries.

The Letter of Offer also contains forward-looking statements that involve risks and uncertainties. * to the extent quantifiable

For further details of litigation proceedings, please refer the chapter titled “*Outstanding Litigations and Material Developments*” on page 94 of this Letter of Offer.

2. *Our business is dependent on our manufacturing facilities, and we are subject to certain risks in our manufacturing process. Any unscheduled, unplanned or prolonged disruption of manufacturing operations or shutdown of our manufacturing facilities may have a material adverse effect on our business, financial condition and result of operations.*

Our business is dependent on our ability to manage our manufacturing operations, which are subject to various operating risks and factors including, among others, breakdown and/or failure of equipment or industrial accidents which may entail significant repair and maintenance costs, increases in raw materials, consumables and manpower costs, challenges in achieving targeted utilization levels at our manufacturing facilities, product quality issues, disruption in electrical power or water resources, timely grant or renewal of approvals, severe weather conditions, natural disasters and outbreaks of infectious diseases, natural calamities, labor disputes, civil disruptions and changes in the regulations and policies of the states or local governments where our manufacturing facilities are located. Although we have not experienced any material instances of such disruptions, we cannot assure you that we will not be subject to these risks in the future. Any of the foregoing could cause delays in our operations or require us to shut down the affected manufacturing facility.

In addition, we may also be subject to manufacturing disruptions due to delays in receiving regulatory approvals, which may require our manufacturing facilities to cease or limit production until the required approvals are received, or disputes concerning these approvals are resolved. Any material disruption at our manufacturing facilities, including but not limited to power failure, fire, strikes, lockouts and unexpected mechanical failure of equipment, could reduce our ability to meet the conditions of our business contracts and earnings for the affected period. Although we have not experienced such material disruptions in the past, we cannot assure you that our manufacturing facilities will be able to operate smoothly in the future. In addition, if we are unable to obtain raw materials and equipment on commercially acceptable terms, or at all, or if our third-party suppliers fail to deliver the raw materials and equipment to us within a reasonable stipulated time, it could lead to disruptions, slowdown or shutdown of operations at our manufacturing facilities. Our inability to effectively respond to any such disruption, slowdown or shutdown, and rectify any disruption in a timely manner and at an acceptable cost, could result in us being unable to satisfy our contractual commitments, which could have an adverse effect on our business, financial condition, cash flows and results of operations.

3. *Our failure to accurately forecast and manage inventory could result in an unexpected shortfall and/or surplus of products, which could have a material adverse impact on our profitability.*

We monitor our inventory levels based on our projections of future demand. Because of the length of time necessary to produce commercial quantities of our products, we make production decisions well in advance of sales for some of our products. An inaccurate forecast of demand may result in unavailability/surplus of products. This unavailability of products in high demand may depress sales volumes and adversely affect customer relationships. Conversely, an inaccurate forecast can also result in an over-supply of products, which may increase costs, negatively impact cash flow, reduce the quality of inventory, erode margins substantially due to writing down of inventory cost from its carrying value to the net realizable value. Any of the aforesaid circumstances could have a material adverse effect on our business, results of operations and financial condition.

4. *Our indebtedness, including various conditions and restrictions imposed on us by our financing agreements, could adversely affect our ability to react to changes in our business, and we may be limited in our ability to use debt to fund future capital needs.*

As of March 31, 2024, our secured and unsecured borrowings amounted to Rs. 9382.18 Lakhs and Rs. 193.32 Lakhs respectively. Our substantial indebtedness could:

- require us to dedicate a substantial portion of our cash flow from operations to payments in respect of our indebtedness, thereby reducing the availability of our cash flow to fund working capital, capital expenditures and other general corporate expenditures;
- increase our vulnerability to adverse general economic or industry conditions;
- limit our flexibility in planning for, or reacting to, competition and/or changes in our business or our industry;
- limit our ability to borrow additional funds;
- restrict us from making strategic acquisitions, introducing new products or services or exploiting business opportunities; and

- place us at a competitive disadvantage relative to competitors that have less debt or greater financial resources.

We cannot guarantee that we will be able to generate enough cash flow from operations or that we will be able to obtain enough capital to service our debt or fund our planned capital expenditures. In addition, adverse changes in the business conditions affecting us could cause the amount of refinancing proceeds to be insufficient to meet our interest payments or fully repay any existing debt upon maturity and we may be unable to fund the payment of such shortfalls. If we cannot obtain alternative sources of financing or our costs of borrowings become significantly more expensive, then our financial condition and results of operations will be adversely affected.

Moreover, the agreements governing certain of our debt obligations include terms that, in addition to certain financial covenants, which, amongst others, restrict our ability to make capital expenditures and investments, declare dividends, effect a scheme of amalgamation or reconstitution, alter our constitutional documents, undertake new projects, change our management and board of directors, modify our promoter/ promoter group shareholding, and modify our capital structure. Any failure on our part to comply with these terms in our loan agreements would generally result in events of default under these loan agreements. In such a case, the lenders under each of these respective loan agreements may, at their discretion, accelerate payment and declare the entire outstanding amounts under these loans due and payable, and in certain instances, enforce their security which has been constituted over various assets and take possession of those assets, which could adversely affect our liquidity and materially and adversely affect our business and operations. In addition, to the extent that we cannot make payments on accelerated amounts, such non-payment could result in the cross default and/or cross-acceleration of some or all our other outstanding indebtedness, and payment of penalty interest, which could likewise adversely affect our liquidity and materially and adversely affect our business, operations and financial conditions.

5. *Any inability on our part to comply with prescribed technical specifications and standards of quality in connection with our products could adversely impact our operations and profitability.*

Our business requires obtaining and maintaining quality certifications and accreditations from independent certification entities as well as some of our customers that enable us to be eligible to participate in orders. Further, we are required to adhere to stringent contractual technical specifications and standards, and our customers may require our manufacturing facilities and products to be preapproved and/or accredited by various agencies before placing orders for our products. If we fail to adhere to the aforesaid requirements or changes thereto in a timely manner, or at all, our cash flows, operations and/or profitability could be adversely affected. Our top customers may vary from period to period depending on order bookings. Our business and results of operations will be adversely affected if we are unable to develop and maintain a continuing relationship or pre-qualified status with our key customers.

6. *Our operations are subject to high working capital finance requirements. Our inability to obtain and/or maintain sufficient cash flow, credit facilities and other sources of funding, in a timely manner, or at all, to meet our requirement of working capital or pay our debts, could adversely affect our operations, financial condition and profitability.*

We require substantial amounts of working capital for our business operations, and failure to obtain required working capital on attractive terms or at all, may materially and adversely affect our growth prospects and future profitability. We require substantial capital to maintain and operate our production facilities.

Our total debt as of March 31, 2024, amounting to Nil. We rely on Vendor financing to meet our working capital requirements. We cannot assure that we will be able to raise additional debt in a timely manner or on acceptable terms in the future to finance our working capital, if required and this may materially and adversely affect our business.

7. *Changes in technology may affect our business by making our manufacturing facilities or equipment less competitive.*

Our profitability and competitiveness are in large part dependent on our ability to respond to technological advances and emerging industry standards and practices on a cost-effective and timely basis. Changes in technology may make newer generation manufacturing equipment more competitive than ours or may require us to make additional capital expenditures to upgrade our manufacturing facilities. We need to continue to invest in new and more advanced technologies and equipment to enable us to respond to emerging industry standards and practices in a cost-effective and timely manner that is competitive with other textile manufacturing companies and other methods of

manufacturing. The development and implementation of such technology entails technical and business risks. We cannot assure you that we will be able to successfully implement new technologies or adapt our processing systems to customer requirements or emerging industry standards. If we are unable to adapt in a timely manner to changing market conditions, customer requirements or technological changes, our business and financial performance could be adversely affected.

8. Any prolonged business interruption at our manufacturing facilities could have a material adverse effect on the results of our operations and profitability.

Any material interruption at our manufacturing facilities, including but not limited to power failure, fire and unexpected mechanical failure of equipment's and pandemic conditions could reduce our ability to meet the conditions of our contracts and earnings for the affected period. Irregular or any interruption in supply of power or water are factors that could adversely affect our daily operations. If there is an insufficient supply of electricity or water to satisfy our requirements, we may need to limit or delay our production, which could adversely affect our business, financial condition, and results of operations. We cannot assure you that we will always have access to sufficient supplies of electricity in the future to accommodate our production requirements and planned growth. Similarly, there is no assurance that those of our manufacturing facilities unaffected by an interruption will have the capacity to increase their output to manufacture products for the affected manufacturing facilities, to the extent that all outstanding orders will be fulfilled in a timely manner. In the event of prolonged interruptions in the operations of our manufacturing facilities, we may have to procure various supplies and products to meet our production requirements, which could affect our profitability.

9. Certain immovable properties purchased are not held in the name of our Company.

Our Company has three immovable properties situated at Nalagarh that are not titled in the name of our Company.

Any further delay in receipt of registration in our Company's name, may affect enforceability of our Company's rights

10. *Our Company had defaulted in repayment of foreign currency convertible bonds ("FCCBs") that upon conversion shall result into Equity Shares.*

Our Company had defaulted on repayment of foreign currency convertible bonds ("FCCBs") which was subsequently settled with Axis Bank Limited through a Settlement Payment Plan. The final payment date is September 30, 2024. The Company credited an amount of Rs. 396.44 lakhs to the Profit & Loss Account in FY 2017 being gains arising out of the settlement while such should have been affected upon complete payment of the FCCB liability.

Further the Company has defaulted in payment of an instalment of USD 1,08,058 due in March 2024, owing to losses incurred and liquidity issues faced by the Company. We cannot assure that the said payment will be repaid on time and no further interest/default interest will be levied against our Company. Such additional penalties may affect the finances of our Company.

Further, the Company has already deposited the amount of Rs. 90.55 Lakh in the bank account of Axis Bank on 25th of June, 2024 but the bank requires the approval from RBI before adjusting the said payment against FCCB instalment and RBI would take 15-20 days for said approval.

11. *There can be certain instances of non-compliance with respect to maintenance of corporate records of the Company in the future, and we may be subject to regulatory actions and penalties, if any, for any such non-compliance/non-traceability of corporate records and our business, financial condition and reputation may be adversely affected.*

Our Company endeavours to maintain the corporate record in the strict compliance with the Companies Act, Secretarial Standards and other applicable laws. As on date of this Letter of Offer, we have complied with all the corporate compliances with respect to Companies Act, Secretarial Standards and other applicable laws; however, we cannot assure whether we will be able to comply with such compliances in a timely manner in the future.

12. *Our lenders have imposed certain restrictive covenants on us under our financing arrangements. This may limit our ability to pursue our business and limit our flexibility in planning for, or reacting to, changes in our business or industry.*

The financing arrangements entered into by us include conditions that require our Company to obtain respective lenders' consent prior to carrying out certain activities and entering into certain transactions. As of March 31, 2024, we had outstanding indebtedness of Rs.9575.50 Lakhs consists of borrowings under non-current liabilities and borrowings under current liabilities). For details on our borrowings, please refer "*Management's Discussion and Analysis of Financial Condition and Results of Operations-Financial Indebtedness*" on page no. 90 of the Letter of Offer. Further for the process of this Issue, our company has obtained the consent from the respective lender vide reference no. *PHOENIX/LPMG/3863/2023-24* dated March 04, 2024. Failure to meet these conditions or obtain these consents could have significant consequences on our business and operations. These covenants vary depending on the requirements of the financial institution extending such loan and the conditions negotiated under each financing agreement. Some of the corporate actions that require prior consents from certain lenders include, amongst others, (a) permit any change in the ownership/ control/ management/ shareholding (including by pledge of promoter/ sponsor shareholding in the borrower to any third party), and (b) wind up, liquidate or dissolve its affairs or take any steps for its voluntary winding up or liquidation or dissolution. While we have received all relevant consents required for the purposes of this Issue and have complied with these covenants, a failure to comply with such covenants in the future may restrict or delay certain actions or initiatives that we may propose to take from time to time. While we have not defaulted on any covenants in financing agreements in the past, we cannot assure you that this will continue to be the case in the future.

A failure to observe the covenants under our financing arrangements or to obtain necessary consents/ waivers, constitute defaults under the relevant financing agreements and will entitle the respective lenders to declare a default against us and enforce remedies under the terms of the financing agreements, that include, among others, acceleration

of amounts due under such facilities, enforcement of any security interest created under the financing agreements and taking possession of the assets given as security in respect of the financing agreements. If the obligations under any of our financing documents are accelerated, we may have to dedicate a portion of our cashflow from operations to make payments under such financing documents, thereby reducing the availability of cash for our working capital requirements and other general corporate purposes. In addition, during any period in which we are in default, we may be unable to raise, or face difficulties raising, further financing. For details on our borrowings, please refer “Management’s Discussion and Analysis of Financial Condition and Results of Operations-Financial Indebtedness” on page no. 90 of the Letter of Offer.

13. Failure for not subscribing to the present Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding of the Promoter and Promoter Group.

The proportionate ownership and voting interest in our Company of the Promoters who are not subscribing to the present Rights Entitlements will be diluted. Even if the Promoters and Promoters Group elect to sell its unexercised Rights Entitlements, the consideration to received may not be sufficient to fully compensate for the dilution of the Promoters and Promoters Group percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Further, in case, the Rights Entitlements do not get credited in time, in case of on Market Renunciation, such Renounee will not be able to apply in this Issue with respect to such Rights Entitlements.

14. There have been instances in the past of default in payment of dues to our lenders. In the event of any further defaults in making repayment of its loans or payment of interest by our Company and Promoters, it may impact its continued business operation and financial condition.

FM Hammerle Textile Limited (erstwhile subsidiary of company) turned NPA and our Company acted as a Corporate Guarantor for the debt availed by FM Hammerle Textile Limited from SBI who was the sole banker and had the following securities:-

Sr. No.	Security	Action Taken
1.	Subsidiary Company's Assets & Cashflow	Sold under IBC
2.	Subsidiary's Collateral Properties	Sold in Open Auction
3.	Corporate Guarantee of Vardhman Polytex Limited (VPL)	Settled at 2.50 Cr
4.	Personal Guarantees of Promoters	Pursuing

With aforesaid recovery actions, SBI could only recover part dues and for recovery of balance dues, the bank is enforcing its rights against Personal Guarantors. Promoters have made an offer of Rs. 1,00,00,000/- (Rupees One Crore Only) with an intention to deposit 10% of the proposed amount into ‘No Lien Account’ towards Negotiated Settlement of Personal Guarantee Obligations. Negotiations by the personal guarantors (Mr. Adish Oswal, Mrs. Rakhi Oswal and Mrs. Manju Oswal) are in process and settlement is yet to be done. There is no liability on the company (Vardhman Polytex Limited) as Corporate Guarantee of the Company has been settled and SBI is proceeding against the Personal Guarantor(s) in DRT and NCLT.

VPL debt was restructured with Phoenix ARC in 8th November, 2023 and since operational EBITDA was not enough to service even restructured debt obligations, VPL defaulted on its restructured obligations towards Phoenix ARC and OTS deferred payment towards Axis Bank on March 31 2024. Same has been notified to Stock Exchanges as well.

If our Company is unable to settle/make payments on time than the same would affect its financials and business operations.

The Company was to pay Rs. 6,00,00,000/- (Rupees Six Crores only) in March, 2024 in terms of scheduled monthly repayment plan in terms of restructuring done vide LOA dated November 8, 2024. But, due to liquidity issues, VPL could pay only Rs. 63,00,000/- (Rupees Sixty Three Lakhs only) by March 31, 2024 out of monthly instalment due for the month of March 2024 resulting into default of Rs. 5,37,00,000/- (Rupees Five Crores Thirty Seven Lakhs

only) on its restructured obligations. The said event of default was duly reported to Stock Exchanges vide our letter dated April 30,2024.

The Company has since cleared the default amount in respect of 31 March, 2024. An amount of Rs.720 Lakhs in respect of monthly instalments in respect of May, 2024 to July, 2024 are yet to be paid. In the above matter, additional Penal Interest (Q1 2024-25) of Rs.50.40 Lakhs has been levied by Phoenix.

15. *Our Auditor has made qualifications in the audit report of financial year ending 2023-2024.*

Our Auditor has provided qualifications in the Financial Statements for Financial Year 2023-24 relating to Ind AS financial statements crediting a profit of Rs 396.44 Lacs due on payment of FCCB liability to the statement of profit & loss during the year ended March 31,2017 which should have been credited in the statement of profit & loss on payment of FCCB liability which is still outstanding to the tune of 216,115 USD as on March 31,2024 and is not in compliance with the requirements of the Ind AS-1 i.e., preparation of financial statements on accrual basis. Consequently, the profit and loss has been overstated by the abovementioned amount. We further report that, the impact of Auditor Qualification made above have been considered, the net loss and the net worth, for the period ended, are altered by Rs. 396.44 Lacs. There is no assurance that our audit reports for any future fiscal periods will not contain qualifications, adverse remarks, matters of emphasis or other observations which could subject us to additional liabilities due to which our reputation and financial condition may be adversely affected.

16. *Our Company has incurred a negative Networth in the recent past. Any losses in the future may have a significant adverse impact on our financial condition and may lead to further erosion of our net worth.*

Our Company has a Negative Networth of ₹ 36,103.76 Lakh in FY 2023-24 and Rs. 36,230.67 Lakh in FY 2022-23 due to losses. Our Company may incur losses in the future for a number of reasons and we may encounter unforeseen expenses, difficulties, complications, delays and other unknown events. If our Company incur losses in the future or unable to generate sufficient revenue to meet our financial targets or unable to have sustainable positive cash flows, investors could lose its investment and the market price of our Equity Shares could suffer.

17. *We have experienced delays in payment of provident fund contributions in the past and the same has been recorded in our Audit Report of FY 2023-2024.*

Our Company, in the regular course of its operations, is required to pay certain statutory dues including the employee provident fund contributions. In compliance with the applicable laws, the dues are outstanding to be deposited for the period of more than 6(six) months as on March 31, 2024 to the extent of Rs. 117.66 lakhs and out of the same Rs.82.41 lakhs has been deposited on the date of the Audit Report of FY 2023-2024 i.e., May 27, 2024. As on August 18, 2024, an amount of Rs.246.45 lakhs is outstanding to be deposited. The Company is making all efforts to mobilise the funds to pay the said PF dues by 31st December, 2024 tentatively. Although our Company is in the process of clearing the pending dues, however, there can be no assurance that till when the same will be cleared and any further delays by our Company in curbing such delays may expose our Company to legal proceeding or regulatory actions by concerned authorities.

18. *We operate in a competitive business environment. Competition from existing players and new entrants and consequent pricing pressures could have a material adverse effect on our business growth and prospects, financial condition, and results of operations.*

We face huge competition in our industry from the existing players and new entrants. If there is any change in trend, then it may put pressures on pricing, product quality, turnaround time, order size etc., which may put strain on our profit margins. Failure to compete with producers of man-made fiber may have adverse effect on our business, financial condition, and results of operations.

19. *We have incurred losses in the recent past. Continuous financial losses incurred by us may be perceived adversely by external parties such as clients and bankers/lenders, which could affect our reputation, business, financial condition and results of operation and affect our ability to repay the loans availed by our Company.*

We cannot assure you that with lower profit and lower revenue margin, we would be effectively able to service our debt obligations on time and would not commit any defaults in repayment of loans and the interest involved. Occurrence of any of the aforementioned events would adversely affect our ability to maintain adequate cash flows to meet our working capital requirements and run our business in an effective manner. Further, there can be no assurance that we will not incur losses in any future periods, or that there will not be an adverse effect on our reputation or business as a result of such losses. Such losses incurred by us may be received adversely by external parties such as customers, bankers/lenders, and suppliers, which could affect our reputation.

20. *If we are unable to collect our dues and receivables from our customers, our results of operations and cash flows could be materially and adversely affected.*

Our business depends on our ability to successfully obtain payment from our customers of the amount they owe us for the products delivered in timely manner. Our Company generally extends the benefit of a credit period of up to 7 days to its customers. Our average credit cycle has been 7 days in Fiscal 2023-2024.

We cannot assure you that we will be able to accurately assess the creditworthiness of our customers. Macroeconomic conditions could also result in financial difficulties for our customers, including limited access to the credit markets, insolvency, or bankruptcy. Such conditions could cause customers to delay payment, request modifications of their payment terms, or default on their payment obligations to us, cause us to enter into litigation for non-payment, all of which could increase our receivables. If we are unable to meet our contractual obligations, we might experience delays in the collection of, or be unable to collect, our customer balances, and if this occurs, our results of operations and cash flows could be adversely affected. In addition, if we experience delays in billing and collection for our products, our cash flows could be adversely affected. Any significant decrease in or discontinuation of products manufactured from our products by customers in the industry or other industries from which we derive significant revenues in the future may reduce the demand for our products.

21. *We have experienced negative cash flows from operating activities in the last year and may continue to do so in the future, which could have a material adverse effect on our business, prospects, financial condition, cash flows and results of operations.*

We have experienced negative net cash flow from operating activities in the last year, the details of which are provided below:

(₹ in lakhs)	
Financial Year	Amount
2023-24	(-)1378.31

We may incur negative cash flows from operations in the future as well which could have a material adverse effect on our business, prospects, results of operations and financial condition.

22. *In the event we fail to accurately forecast demand for our products, and accordingly manage our inventory or plan capacity expansions, it may have an adverse effect on our business, cash flows, financial condition and results of operations.*

We maintain a level of inventory of raw materials, work in progress and finished goods. We plan our production volumes based on our forecast of the demand for our products. Any error in forecasting could result in surplus stock which would have an adverse effect on our profitability. As of March 31, 2024, work in progress, our inventory of raw materials and finished goods (including traded goods) and stores & spares amounted to ₹ 1681.23 Lakh. . Our inability to accurately forecast demand for our products and manage our inventory may have an adverse effect on our business, cash flows, financial condition and results of operations.

23. *We are dependent on third party transportation providers for the supply of raw materials and delivery of our products.*

As a manufacturing business, our success depends on the smooth supply and transportation of the various raw materials required at our manufacturing units and of our products from manufacturing units to our customers, both of which are subject to various uncertainties and risks. We use third party transportation providers for the supply of most of our raw materials and delivery of our products to domestic and overseas customers. Transportation strikes have had

in the past, and could again have in the future, an adverse effect on supplies and deliveries to and from our customers and suppliers. In addition, raw materials, and products maybe lost or damaged in transit for various reasons including occurrence of accidents or natural disasters. There may also be delay in delivery of raw materials and products which may also affect our business and results of operation negatively. Failure to maintain a continuous supply of raw materials or to deliver our products to our customers in an efficient and reliable manner could have a material and adverse effect on our business, financial condition, and results of operations.

24. *Under-utilization of our manufacturing capacities could have an adverse effect on our business and financial performance.*

Our capacity utilization is affected by the availability of raw materials, industry / market conditions as well as by the product requirements of, and procurement practice followed by, our customers. In the event that we are unable to procure sufficient raw materials and procure sufficient demand, we would not be able to achieve full capacity utilization of our current manufacturing facilities, resulting in operational inefficiencies which could have a material adverse effect on our business and financial condition. The success of any capacity expansion and expected return on investment on capital invested is subject to, among other factors, the ability to procure requisite regulatory approvals in a timely manner; recruit and ensure satisfactory performance of personnel to further grow our business; and the ability to absorb additional infrastructure costs and develop new expertise and utilize the expanded capacities as anticipated. In case of oversupply in the industry or lack of demand, we may not be able to utilize our expanded capacity efficiently.

Our Company's overall capacity utilization is dependent on various factors, including demand for our products, availability of raw materials, customer preferences, our ability to manage our inventory and implement our growth strategy of improving operational efficiency. Under-utilization of our manufacturing capacities over extended periods, or significant under-utilization in the short term, could materially and adversely impact our business, growth prospects and future financial performance.

25. *Inconsistent product quality could lead to customer dissatisfaction, hampering reputation, sales and business which may materially and adversely affect our business and prospects.*

We face business risks relating to our products not meeting the customer's technical specifications or the required quality standards. We have prescribed stringent quality checks and continue to improve its resource utilization and minimize in-process rejections by leveraging quality tests across all manufacturing facilities. We are focused on improving quality systems and their effectiveness to lessen the incidence of such risks and simultaneously improving its operational efficiencies. However, there can be no assurance that there could still not be some deviation from prescribed quality standards due to factors such as human error. Despite putting in place strict quality control procedures we cannot assure that our products will always be able to satisfy our clients/customer's quality standards. Any negative publicity regarding our Company, or products, including those arising from any deterioration in quality of our products from our vendors, or any other unforeseen events could adversely affect our reputation and our operations. Introduction of new products or for any other reason, any failure on our part to meet our customers' expectation could adversely affect our business, result of operations and financial condition. Such risks may be controlled, but not eliminated, by adherence to good manufacturing practices and finished product testing. We have little, if any, control over proper handling once our products are delivered to our customers. In case our products do not meet the customer, requirements or fails to adhere to the technical specifications or quality standards, our customers may cancel the order. Any such cancellation by our customers may adversely affect our reputation and brand image, which could adversely affect our business, results of operations and financial condition.

26. *We are dependent on our senior management and other key personnel as well as certain intermediaries, and the loss of, or our inability to attract or retain, such persons could adversely affect our business, results of operations, financial condition, and cash flows.*

Our performance depends largely on the efforts and abilities of our senior management and other key personnel. We believe that the inputs and experience of our senior management in particular, and other key personnel are valuable for the development of our business and operations and the strategic directions taken by our Company. For further information of our key management personnel, refer chapter "Our Management" on page 84. There can be no assurance that these individuals or any other member of our senior management team will not leave us or join a competitor or that we will be able to retain such personnel or find adequate replacements in a timely manner, or at all.

We may require a long period of time to hire and train replacement personnel when a qualified personnel terminates their employment with our Company. We may also be required to increase our levels of employee compensation more rapidly than in the past to remain competitive in attracting employees that our business requires. The loss of the services of such persons may have an adverse effect on our business, results of operations, financial condition, and cash flows.

27. *We require various licenses and approvals for undertaking our business and if we fail to obtain, maintain, or renew our statutory and regulatory licenses, permits and approvals required to operate our business, our business operations may be adversely affected.*

Our Company's operations are subject to government regulations, and we are required to obtain and maintain several statutory and regulatory permits, approvals, and consents under central, state, and local government rules in India, generally for carrying out our business and for each of our manufacturing facilities. The introduction of additional government control or newly implemented laws and regulations, depending on the nature and extent thereof and our ability to make corresponding adjustments, may adversely affect our business, results of operations and financial condition. In particular, decisions taken by regulators concerning economic policies or goals that are inconsistent with our interests could adversely affect our results of operations. These laws and regulations and the way in which they are implemented and enforced may change from time to time and there can be no assurance that future legislative or regulatory changes will not have an adverse effect on our business, financial condition, cash flows and results of operations.

Further, certain approvals for our manufacturing facilities are required to be applied or renewed on an ongoing basis. The approvals required by us are subject to numerous conditions and we cannot assure you that these would not be suspended or revoked in the event of non-compliance or alleged noncompliance with any terms or conditions thereof, or pursuant to any regulatory action. If there is any failure by us to comply with the applicable regulations or if the regulations governing our business are amended, we may incur increased costs, be subject to penalties, have our approvals and permits revoked or suffer a disruption in our operations, any of which could adversely affect our business. In case we fail to comply with these requirements, or a regulator alleges we have not complied with these requirements, we may be subject to penalties and compounding proceedings.

28. *If we are unable to successfully execute our growth strategies, our business prospects, and results of operations could be materially and adversely affected.*

We propose to expand our business by adopting a series of strategies. Our growth depends on our ability to expand our market share and our inability to do so may adversely affect our growth prospects. Our growth strategies could place significant demand on our management and our administrative, operational, and financial infrastructure. We could also encounter difficulties and delays in executing our growth strategies due to several factors, including, without limitation, delays in implementation, lack of appropriate infrastructure, unavailability of human and capital resources, or any other risks that we may or may not have foreseen. Our management may also change its view on the desirability of current strategies, and any resultant change in our strategies could put significant strain on our resources. Further, we may be unable to achieve any synergies or successfully integrate any acquired business into our portfolio. Any business that we acquire may subject us to additional liabilities, including unknown or contingent liabilities, liabilities for failure to comply with laws and regulations, and we may become liable for the past activities of such businesses.

29. *Wage pressures and increase in operating costs in India may prevent us from sustaining our competitive advantage and may reduce our profit margins.*

Wage costs and operating costs have historically been significantly lower in India than wage costs and operating costs in the United States, Europe, and other developed economies; and these reduced costs have been one of the sources of our competitive strengths. However, any increase in wage and operating expenses in India may prevent us from sustaining this competitive advantage and may negatively affect our profit margins. Wages in India are increasing at a faster rate than in the developed economies, which could result in increased employee benefit expenses. We may need to continue to increase the levels of our employee compensation to remain competitive and manage attrition. Compensation increases manifest a hike in operational costs which may result in a material adverse effect on our business and financial condition and result of operations.

30. *We are subject to export and import controls that could adversely impact our business.*

We are subject to export and import control laws that limit us to where and to whom we can sell our products which could result in postponements or cancellations of product orders. In addition, various countries have enacted laws that could limit our ability to distribute our products or could limit our customers' ability to implement our products in those countries. Changes in our products or changes in export and import regulations may create delays in the introduction of our products in international markets, prevent our customers with international operations from deploying our products throughout their global systems or, in some cases, prevent the export or import of our products to certain countries altogether. Any change in export or import regulations or related legislation, shift in approach to the enforcement or scope of existing regulations, or change in the countries, persons or technologies targeted by such regulations, could result in decreased use of our products by, or in our decreased ability to export or sell our products to, existing or potential customers with international operations. Delays caused by our compliance with regulatory requirements in obtaining or maintaining any regulatory approvals that may, in the future, be required to operate our business could materially affect our business and operating results. We may also be unable to secure raw materials components or software for our capital equipment due to export control laws, as a result of which, our supply chain may be disrupted and we may be unable to provide our products to customers, which can result in a loss of business for us.

31. *Our operations could be adversely affected by strikes, work stoppages or increased wage demands by our employees or any other kind of disputes with our employees.*

As of March 31, 2024, we have employed 974 permanent employees and 72 temporary employees across our operations. Although we have not experienced any material labor unrest in the past, we cannot assure you that we will not experience disruptions in work due to disputes or other problems with our work force, which may adversely affect our ability to continue our business operations. Any labor unrest directed against us, could directly or indirectly prevent, or hinder our normal operating activities, and, if not resolved in a timely manner, could lead to disruptions in our operations. These actions are impossible for us to predict or control and any such event could adversely affect our business, results of operations and financial condition.

32. *Our registered office is on leased premises and Lease deed have been executed for the same. Any termination or dispute in relation to this lease deed may have an adverse effect on our business operations and results thereof.*

Our Registered office situated at Vardhman Park Chandigarh Road, Ludhiana-141123, Ludhiana, Punjab - 141123, India, is a leased premises. The said property is owned by Stel-Tec Pvt. Ltd. who has entered into an agreement with our Company for leasing the same premises for a period of 11 months i.e., from July 1, 2024 to May 31, 2025 and which can be renewed with mutual agreement of the parties. For details, please refer to “*Our Business - Our Immovable Properties*” page no. 68 of this Letter of Offer. Our business operations are also conducted from the said premises. As per the lease deed if there are any non-compliance by us in relation to any term of lease deed, rents and any other terms and conditions, this may result in the termination of the lease deed and consequently we have to vacate the said premises. We also cannot assure you that landlord will not terminate the lease deed, which would require us to locate to another premise and may have an adverse effect on our conducting our business operations

33. *Our insurance coverage may not be adequate, and this may have an adverse effect on our business and revenues.*

We could face liabilities for accidents that occur at our manufacturing facilities or otherwise arise out of our operations. In the event of personal injuries, fires or other accidents suffered by our employees or other people, we could face claims alleging that we were negligent, provided inadequate supervision or be otherwise liable for the injuries. Our principal types of coverage include standard fire and special perils insurance policy, money insurance policy and burglary insurance policy.

While we believe that the insurance coverage which we maintain would be reasonably adequate to cover the normal risks associated with the operation of our business, we cannot assure you that any claim under the insurance policies maintained by us will be honored fully, in part or on time, or that we have taken out sufficient insurance to cover all our losses. In addition, our insurance coverage expires from time to time. We apply for the renewal of our insurance coverage in the normal course of our business, but we cannot assure you that such renewals will be granted in a timely manner, at acceptable cost or at all. To the extent that we suffer loss or damage for which we did not obtain or maintain insurance, and which is not covered by insurance, exceeds our insurance coverage where our insurance claims are

rejected, the loss would have to be borne by us and our results of operations, cash flows and financial performance could be adversely affected.

34. *Compliance with, and changes in, environmental, health and safety laws and regulations or stringent enforcement of existing environmental, health and safety laws and regulations may result in increased liabilities and increased capital expenditures may adversely affect our cash flows, business results of operations and financial condition.*

Our operations are subject to environmental, health and safety and other regulatory and/ or statutory requirements in the jurisdictions in which we operate. Our operations may generate pollutants and waste, some of which may be hazardous. We are accordingly subject to various national, state, municipal and local laws and regulations concerning environmental protection in India, including laws addressing the discharge of pollutants into the air and water, the management and disposal of any hazardous substances, and wastes and the clean-up of contaminated sites. We cannot assure you that compliance with such laws and regulations will not result in a material increase in our costs or otherwise have an adverse effect on our financial condition, cash flows and results of operations. Further, manufacturing activities in India are also subject to various health and safety laws and regulations as well as laws and regulations governing their relationship with their respective employees in areas such as minimum wages, maximum working hours, overtime, working conditions, hiring, and terminating employees and work permits. Accidents, in particular fatalities, may have an adverse impact on our reputation and may result in fines and/or investigations by public authorities as well as litigation from injured workers or their dependents. Non-compliance with these laws and regulations, which among other things, limit or prohibit emissions or spills of toxic substances produced in connection with our operations, could expose us to civil penalties, criminal actions, and revocation of key business licenses. Environmental laws and regulations in India are becoming more stringent, and the scope and extent of new environmental regulations, including their effect on our operations, cannot be predicted with any certainty. In case of any change in environmental or pollution regulations, we may be required to invest in, among other things, environmental monitoring, pollution control equipment, and emissions management. As a consequence of unanticipated regulatory or other developments, future environmental and regulatory related expenditures may vary substantially from those currently anticipated. We cannot assure you that our costs of complying with current and future environmental laws and other regulations will not adversely affect our business, results of operations or financial condition.

36. *Our funding requirements and proposed deployment of the Net Proceeds are based on management estimates and have not been independently appraised and may be subject to change based on various factors, some of which are beyond our control*

Our Company proposes to utilize the Net Proceeds for the Issue towards repayment of loans, modernisation of plants and general corporate purpose. Our funding requirements and deployment of the Net Proceeds are based on internal management estimates based on current market conditions and have not been appraised by any bank or financial institution or other independent agency. Further, in the absence of such independent appraisal, our funding requirements may be subject to change based on various factors which are beyond our control however such changes shall be in compliance with all the applicable laws and regulations. In respect of modernisation of plants, we are yet to place orders for the required machineries. For details, see “*Objects of the Issue*” on page 43. In addition, we cannot

assure you that use of the Net Proceeds towards repayment of loan and the expenditure towards modernization of plants identified by our management would result in actual growth of our business, increased profitability, or an increase in the value of our business and your investment. However, net proceeds will be utilised in compliance with applicable laws and regulations.

37. *Impact of the COVID-19 pandemic on our Business Operations.*

The impact assessment for FY 2020-21 which was done as per guidance note issued by ICAI on COVID-19 outbreak. This impact assessment has been done taking into account multiple factors including impact on capital and financial resources, profitability, liquidity position, ability to service debts, major repair maintenance provision due to multiple shuts, additional debtors' provision, supply chain, demand for products/services, slowdown in revenue, Covid vaccination drive by company, staff welfare for employee hospitalization support and employee incentive and retention bonus etc. The total of such impact was for Rs. 6,30,47,358/- for which provision has been made in the financial statements for the year ended March 31, 2021.

Though, our Company was able to retain the impact of this pandemic but there is no assurance that occurrence of another pandemic would have such limited effect both financially and on our operations.

ISSUE SPECIFIC RISKS

38. *Our Company will not distribute the Letter of Offer and Application Form to certain overseas Shareholders who have not provided an address in India for service of documents.*

Our Company will dispatch the Letter of Offer, the Letter of Offer, the Abridged Letter of Offer, Rights Entitlement Letter and Application Form (the "*Offering Materials*") to such Shareholders who have provided an address in India for the service of documents. The Offering Materials will not be distributed to addresses outside India on account of restrictions that apply to the circulation of such materials in various overseas jurisdictions. However, the Companies Act requires companies to serve documents at any address, which may be provided by the members as well as through e-mail. Presently, there is a lack of clarity under the Companies Act, 2013, and the rules thereunder, with respect to the distribution of Offering Materials to retail individual shareholders in overseas jurisdictions where such distribution may be prohibited under applicable laws of such jurisdictions.

39. *The Rights Entitlement of Eligible Equity Shareholders holding Equity Shares in physical form ("Physical Shareholder") may lapse in case they fail to furnish the details of their demat account to the Registrar.*

In accordance with the SEBI Circular SEBI/HO/CFD/SSEP/CIR/P/2022/66 and SEBI/HO/CFD/PoD-2/P/CIR/2023/00094 dated May 19, 2022 and June 21, 2023 respectively, the credit of Rights Entitlement and Allotment of Equity Shares shall be made in dematerialized form only. Accordingly, the Rights Entitlements of the Physical Shareholders shall be credited in a suspense escrow de-mat account opened by our Company during the Issue Period. The Physical Shareholders are requested to furnish the details of their de-mat account to the Registrar not later than two Working Days prior to the Issue Closing Date to enable the credit of their Rights Entitlements in their de-mat accounts at least one day before the Issue Closing Date. The Rights Entitlements of the Physical Shareholders who do not furnish the details of their de-mat account to the Registrar not later than two Working Days prior to the Issue Closing Date, shall lapse. Further, pursuant to a press release dated December 3, 2018, issued by the SEBI, with effect from April 01, 2019, a transfer of listed Equity Shares cannot be processed unless the Equity Shares are held in dematerialized form (except in case of transmission or transposition of Equity Shares).

40. *Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.*

Rights Entitlements that are not exercised prior to the end of the Issue Closing Date or those Rights Entitlements that are purchased and not exercised prior to the end of the closing date, will expire and become null and void, and the Eligible Equity Shareholders or holders of the Rights Entitlement will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue.

Renounees may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renounees prior to the Issue Closing Date. Further, in case, the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renounee will not be able to apply in this Issue with respect to such Rights Entitlements. For details, see “*Terms of the Issue*” on page 120.

41. *Any future issuance of Equity Shares, or convertible securities or other equity-linked securities by our Company may dilute your shareholding and any sale of Equity Shares by our Promoter or members of our Promoter Group may adversely affect the trading price of the Equity Shares.*

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by our Company may dilute your shareholding in our Company; adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. We cannot assure you that we will not issue additional Equity Shares.

The disposal of Equity Shares by any of our Promoter and Promoter Group, or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. We cannot assure you that our Promoter and Promoter Group will not dispose of, pledge or encumber their Equity Shares in the future.

42. *Investors may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares of an Indian company are generally taxable in India. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short-term capital gains tax in India. Capital gains arising from the sale of the Equity Shares may be partially or completely exempt from taxation in India in cases where such exemption is provided under a treaty between India and the country of which the seller is a resident. Generally, Indian tax treaties do not limit India’s ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on gains made upon the sale of the Equity Shares.

43. *Applicants to this Issue are not allowed to withdraw their Applications after the Issue Closing Date.*

In terms of the SEBI ICDR Regulations, Applicants in this Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in this Issue and the credit of such Equity Shares to the Applicant’s demat account with its depository participant shall be completed within such period as prescribed under the applicable laws. There is no assurance, however, that material adverse changes in the international or national monetary, financial, political or economic conditions or other events in the nature of force majeure, material adverse changes in our business, results of operation, cash flows or financial condition, or other events affecting the Applicant’s decision to invest in the Equity Shares, would not arise between the Issue Closing Date and the date of Allotment in this Issue. Occurrence of any such events after the Issue Closing Date could also impact the market price of our Equity Shares. The Applicants shall not have the right to withdraw their applications in the event of any such occurrence. We cannot assure you that the market price of the Equity Shares will not decline below the Issue Price. To the extent the market price for the Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase Equity Shares at a price that will be higher than the actual market price for the Equity Shares at that time. Should that occur, the shareholder will suffer an immediate unrealized loss as a result. We may complete the Allotment even if such events may limit the Applicants’ ability to sell our Equity Shares after this Issue or cause the trading price of our Equity Shares to decline.

44. *Investors will be subject to market risks until the Equity Shares credited to the investors demat account are listed and permitted to trade.*

Investors can start trading the Equity Shares allotted to them only after they have been credited to an investor’s demat account, are listed and permitted to trade. Since the Equity Shares are currently traded on the Stock Exchanges, investors will be subject to market risk from the date they pay for the Equity Shares to the date when trading approval

is granted for the same. Further, there can be no assurance that the Equity Shares allocated to an investor will be credited to the investor's demat account or that trading in the Equity Shares will commence in a timely manner.

45. *You may not receive the Equity Shares that you subscribe in the Issue until fifteen days after the date on which this Issue closes, which will subject you to market risk.*

The Equity Shares that you subscribe in the Issue may not be credited to your demat account with the depository participants until approximately 15 days from the Issue Closing Date. You can start trading such Equity Shares only after receipt of the listing and trading approval in respect thereof. There can be no assurance that the Equity Shares allocated to you will be credited to your demat account, or that trading in the Equity Shares will commence within the specified time period, subjecting you to market risk for such period.

46. *The trading price of our Equity Shares may be subject to volatility and you may not be able to sell your Equity Shares at or above the Issue Price.*

The trading price of our Equity Shares may fluctuate after this Issue due to a variety of factors, including our results of operations and the performance of our business, competitive conditions, general economic, political and social factors, the performance of the Indian and global economy and significant developments in India's fiscal regime, volatility in the Indian and global securities market, performance of our competitors, changes in the estimates of our performance or recommendations by financial analysts and announcements by us or others regarding contracts, acquisitions, strategic partnerships, joint ventures, or capital commitments. In addition, if the stock markets in general experience a loss of investor confidence, the trading price of our Equity Shares could decline for reasons unrelated to our business, financial condition or operating results. The trading price of our Equity Shares might also decline in reaction to events that affect other companies in our industry even if these events do not directly affect us. Each of these factors, among others, could adversely affect the price of our Equity Shares.

47. *There is no guarantee that our Equity Shares will be listed in a timely manner or at all which may adversely affect the trading price of our Equity Shares.*

In accordance with Indian law and practice, final approval for listing and trading of the Equity Shares will not be granted by the Stock Exchanges until after those Equity Shares have been issued and allotted. Approval will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on Stock Exchanges. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares. Further, historical trading prices, therefore, may not be indicative of the prices at which the Equity Shares will trade in the future which may adversely impact the ability of our shareholders to sell the Equity Shares or the price at which shareholders may be able to sell their Equity Shares at that point of time.

48. *Holder of Equity Shares could be restricted in their ability to exercise pre-emptive rights under Indian law and could thereby suffer future dilution of their ownership position.*

Under the Companies Act, any company incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages prior to the issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the shares voted on such resolution, unless our Company has obtained government approval to issue without such rights. However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without us filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights unless we make such a filing. We may elect not to file a registration statement in relation to pre-emptive rights otherwise available by Indian law to you. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, your proportional interests in us would be reduced.

49. *Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may adversely affect the value of our Equity Shares, independent of our operating results.*

On listing, our Equity Shares will be quoted in Indian Rupees on the Stock Exchanges. Any dividends in respect of our Equity Shares will also be paid in Indian Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in

currency exchange rates during a delay in repatriating outside India the proceeds from a sale of Equity Shares, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by equity shareholders. For example, the exchange rate between the Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may adversely affect the trading price of our Equity Shares and returns on our Equity Shares, independent of our operating results.

50. *Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.*

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation in another jurisdiction.

51. *Your ability to acquire and sell the Issue Shares offered in the Issue is restricted by the distribution, solicitation and transfer restrictions set forth in this Letter of Offer.*

No actions have been taken to permit an offering of the Equity Shares in the Rights Issue in any jurisdiction except India. As such, our Equity Shares have not and will not be registered under the U.S. Securities Act, any state securities laws or the law of any jurisdiction other than India. Further, your ability to acquire Equity Share is restricted by the distribution and solicitation restrictions set forth in this Letter of Offer. For further information, please refer to the chapters entitled 'Notice to Investors', 'Other Regulatory and Statutory Disclosures' and 'Restrictions on Foreign Ownership of Indian Securities' on pages 9, 115 and 149, respectively of this Letter of Offer. You are required to inform yourself about and observe these restrictions. Our representatives, our agents and us will not be obligated to recognize any acquisition, transfer or resale of the Equity Shares made other than in compliance with applicable law.

EXTERNAL RISKS

52. *Negative public opinion could damage our reputation and adversely affect our earnings.*

Reputation risk, or the risk to our business, earnings and capital from negative public opinion, is inherent in our business. Negative public opinion can result from our actual or alleged conduct in any number of activities including but not limited to corporate governance, and actions taken by government regulators and community organizations in response to those activities. Negative public opinion can also result from media coverage, whether accurate or not. Negative public opinion can adversely affect our ability to attract and retain customers, trading counterparties and employees and can expose us to litigation and regulatory action. Although we take steps to minimize reputation risk in dealing with our customers and communities, this risk will always be present in our organization.

53. *Our business is affected by prevailing economic, political, and other prevailing conditions in India and the markets we currently service.*

Our results of operations and financial condition depend significantly on prevailing economic conditions in India and our results of operations are affected by factors influencing the Indian economy. Various factors may lead to a slowdown in the Indian economy, which in turn may adversely impact our business, prospects, financial performance, and operations. In the past, the Indian economy has been affected by global economic uncertainties, liquidity crisis, domestic policies, global political environment, volatility in interest rates, currency exchange rates, commodity and electricity prices, volatility in inflation rates and various other factors. Accordingly, high rates of inflation in India could increase our employee costs and decrease our operating margins, which could have an adverse effect on our results of operations. Any slowdown in the economy of the markets in which we operate may adversely affect our business and financial performance of our business and operation.

54. *We face substantial competition in the textile business, both from Indian and international companies, which may adversely affect our revenues.*

We face significant competition from existing players and potential entrants in the Indian textile industry. The Indian textile industry is highly competitive. We face competition mainly from large vertically integrated and diversified companies as well as new companies. Some of our international competitors are larger than us and have greater financial resources. Additionally, we work closely with both our suppliers and our customers in the textile industry.

If such a supplier or customer considers backward or forward integrating and diversifying their operations, this may not only result in the loss of such supplier and/or customer but will also result in increased competition. Increased competition could result in price reductions, decreased sales, lower profit margins or losses in market share, any of which could have an adverse effect on our business, results of operations and financial condition.

55. *Export destination country may impose varying duties or enter into free trade agreements with countries other than India.*

Any increase in such duties or the entering into free trade agreements with countries other than India may materially and adversely affect our business, financial condition and results of operations. There can be no assurance that the duties imposed by such country will not increase. Additionally, export destination country may also enter into free trade agreements or regional trade agreements with countries other than India. Such agreements and alteration of any existing tax treaties may lead to increased competition or may even place us at a competitive disadvantage compared to manufacturers in other countries and could adversely affect our business, financial condition and results of operations. Further, changes in import policies in the country to which we export our products may have a significant adverse impact on our business, financial condition and results of operations.

56. *Terrorist attacks, civil disturbances, regional conflicts, and other acts of violence in India and abroad may disrupt or otherwise adversely affect the Indian economy, the health of which our business depends on.*

India has from time to time experienced social and civil unrest and terrorist attacks. These events could lead to political or economic instability in India. Events of this nature in the future could have a material adverse effect on our ability to develop our business. As a result, our business, results of operations and financial condition may be adversely affected. India has also experienced social unrest, Naxalite violence and communal disturbances in some parts of the country. If such tensions occur in places where we operate or in other parts of the country, leading to overall political and economic instability, it could adversely affect our business, results of operations, financial condition, and trading price of our Equity Shares.

57. *The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.*

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. Terrorist attacks and other acts of violence or war may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially between India and its neighbouring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

58. *Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws and regulations may adversely affect our business results of operations, cash flows and financial performance.*

Changes in the operating environment, including changes in tax law, could impact the determination of our tax liabilities for any given tax year. Taxes and other levies imposed by the Government of India that affect our industry include income tax, goods and services tax and other taxes, duties or surcharges introduced from time to time. The tax scheme in India is extensive and subject to change from time to time. Any adverse changes in any of the taxes levied by the Government of India may adversely affect our competitive position and profitability. We cannot assure you that the Government of India may not implement new regulations and policies which will require us to obtain approvals and licenses from the Government of India and other regulatory bodies or impose onerous requirements and conditions on our operations. Any such changes and the related uncertainties with respect to the applicability, interpretation, and implementation of any amendment to, or change to governing laws, regulation, or policy in the countries in which we operate may materially and adversely affect our business, results of operations and financial condition. In addition, we may have to incur expenditure to comply with the requirements of any new regulations, which may also materially harm our results of operations. We are also subject to these risks in all our overseas

operations depending on each specific country. Any unfavourable changes to the laws and regulations applicable to us could also subject us to additional liabilities. As a result, any such changes or interpretations may adversely affect our business, financial condition, and financial performance. Further, changes in capital gains tax or tax on capital market transactions or sale of shares may affect investor returns.

59. *Financial instability in other countries may cause increased volatility in Indian financial markets.*

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, particularly emerging market countries in Asia. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss of investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our business, our future financial performance and the prices of the Equity Shares. The recent outbreak of Novel Coronavirus has significantly affected financial markets around the world. Any other global economic developments or the perception that any of them could occur may continue to have an adverse effect on global economic conditions and the stability of global financial markets and may significantly reduce global market liquidity and restrict the ability of key market participants to operate in certain financial markets. Any of these factors could depress economic activity and restrict our access to capital, which could have an adverse effect on our business, financial condition and results of operations and reduce the price of our Equity Shares. Any financial disruption could have an adverse effect on our business, future financial performance, shareholders' equity and the price of our Equity Shares.

60. *Investors may have difficulty enforcing foreign judgments against us or our management.*

We are a limited liability company incorporated under the laws of India. All our directors and executive officers are residents of India and all of our assets and such persons are located in India. As a result, it may not be possible for investors to effect service of process upon us or such persons outside of India, or to enforce judgments obtained against such parties outside of India. Recognition and enforcement of foreign judgments is provided for under Section 13 of the Code of Civil Procedure, 1908 ("CPC") on a statutory basis. Section 13 of the CPC provides that foreign judgments shall be conclusive regarding any matter directly adjudicated upon, except: (i) where the judgment has not been pronounced by a court of competent jurisdiction; (ii) where the judgment has not been given on the merits of the case; (iii) where it appears on the face of the proceedings that the judgment is founded on an incorrect view of international law or a refusal to recognise the law of India in cases to which such law is applicable; (iv) where the proceedings in which the judgment was obtained were opposed to natural justice; (v) where the judgment has been obtained by fraud; and (vi) where the judgment sustains a claim founded on a breach of any law then in force in India. Under the CPC, a court in India shall, upon the production of any document purporting to be a certified copy of a foreign judgment, presume that the judgment was pronounced by a court of competent jurisdiction, unless the contrary appears on record. However, under the CPC, such presumption may be displaced by proving that the court did not have jurisdiction. India is not a party to any international treaty in relation to the recognition or enforcement of foreign judgments. Section 44A of the CPC provides that where a foreign judgment has been rendered by a superior court, within the meaning of that Section, in any country or territory outside of India which the Central Government has by notification declared to be in a reciprocating territory, it may be enforced in India by proceedings in execution as if the judgment had been rendered by the relevant court in India. However, Section 44A of the CPC is applicable only to monetary decrees not being of the same nature as amounts payable in respect of taxes, other charges of a like nature or of a fine or other penalties. The United States and India do not currently have a treaty providing for reciprocal recognition and enforcement of judgments, other than arbitration awards, in civil and commercial matters. Therefore, a final judgment for the payment of money rendered by any federal or state court in the United States on civil liability, whether or not predicated solely upon the federal securities laws of the United States, would not be enforceable in India. However, the party in whose favour such final judgment is rendered may bring a new suit in a competent court in India based on a final judgment that has been obtained in the United States. The suit must be brought in India within three years from the date of the judgment in the same manner as any other suit filed to enforce a civil liability in India. It is unlikely that a court in India would award damages on the same basis as a foreign court if an action was brought in India. Furthermore, it is unlikely that an Indian court would enforce a foreign judgment if that court were of the view that the amount of damages awarded was excessive or inconsistent with public policy or Indian practice. It is uncertain as to whether an Indian court would enforce foreign judgments that would contravene or violate Indian law. However, a party seeking to enforce a foreign judgment in India is required to obtain approval from the RBI under the FEMA to execute such a judgment or to repatriate any amount recovered.

61. Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Share.

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI, or any other government agency can be obtained on any particular terms or at all.

62. Any downgrading of India's debt rating by an international rating agency could have a negative impact on our business.

Any adverse revision to India's credit rating for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our financial performance and our ability to obtain financing to fund our growth on favourable terms or at all.

63. Enhanced Surveillance Measure (ESM): Our Company was subject to surveillance measure by Stock Exchanges

Securities and Exchange Board of India (SEBI) and Exchanges in order to enhance market integrity and safeguard interest of investors, have been introducing various enhanced surveillance measures such as Graded Surveillance Measure (GSM), Additional surveillance Measure(ASM), reduction in price band, periodic call auction and transfer of securities to Trade to Trade category from time to time.

The shortlisting of securities for placing in ESM framework is based on objective criteria as jointly decided by SEBI and Exchanges covering the following market based dynamic parameters:

- High Low Variation
- Close to Close Price Variation
- Market Capitalization
- Standard Deviation

The shortlisting of securities under ESM is purely on account of market surveillance and should not be construed as an adverse action against the concerned company/entity. Shares of our company have been moved out of ESM as on the date of letter of offer.

(B) Modernisation of Plants

Funding capital expenditure requirement for up-gradation of our existing manufacturing unit (Rs. 1,220 lakhs)

Rationale for the CAPEX / up-gradation

The up-gradation is proposed for the cotton compact yarn manufacturing facilities at our Factory premises at Village – Nangal, Nihala/Uperla, Swarghat Road, Nalagarh Distt – Solan H.P. - 174101

The current capacity of the above unit is as under (On working of 363 days/annum):

Product	Capacity per Day	Capacity Per annum
100% Cotton Compact Yarn	21300 kg	7750050 Kg
Yarn Realization at Present		66.8%
No. of Spindles		40800
Average Count		33.2 Ne

The present production capacity, quality of the product and the available machineries are becoming bottlenecks in recent days with respect to profitability, price competitiveness & customer’s acceptability in terms of quality in Export as well as in domestic market. Further, the above unit is also facing the following constraints:

- Old version of technology like Loptex – contamination-clearing efficiency is reducing day by day, posing a persistent quality threat in final product in global market.
- Low productive LC-333 cards with higher waste level increases the cost of production.
- Murata Linkconers – Shorter frame size restricts to explore full potential of Ring frame productivity.
- Restricted flexibility of using dual mixing for coarser and finer count of yarn

Proposal for the up-gradation

Considering the above, our Company proposes the following up-gradation program thus enabling the company to deliver sustainable quality at reduced conversion cost thus making the Textile yarn business more profitable:

Scope of the Project

1. Replacement of 2 nos of LOPTEX – HRS-120 contamination clearers and up-gradation 1 no with modern /current technology LOPTEX – EXA. This will enable to remove more than 80% colored contamination and more than 60% in white PP contamination in cotton fibre and ensure us to achieve desired contamination level in fabric of 40 nos / 20 kg roll from existing 70-80 nos / 20 kg roll
2. Replacement of 12 nos of LC333 cards with latest/high productive LC-361 cards:
 - (a) Will support us in achieving better quality at higher production rate (52.5kg/hr against existing 49 kg/hr).
 - (b) Lower waste extraction by 1.5%.
 - (c) Total production of the plant will increase by 407 kg/day
3. Lower short fiber generation at card will facilitate to improve comber noil by another 1%.
4. One no. of Speed frame LF-4280 of 160 spindles capacity required to support increased final production capacity of 407 kg with qualitative gain of the product by making roving hank finer.
5. Link coner – With addition of 2 nos of Link coners, the true potential of Ring frame can be achieved, thus increase production capacity per day.

After executing above said proposal, the production capacity & Yarn realization would be as under (On working of

363 days/annum) :

Product	Capacity per Day	Capacity Per annum
100% Cotton Compact Yarn	21707 kg	7879641 Kg
Yarn Realization		69.3%
No. of Spindles		40800
Average Count		33.2 Ne

SECTION IV - ABOUT THE COMPANY

INDUSTRY OVERVIEW

India's textiles sector is one of the oldest industries in the Indian economy, dating back to several centuries. The industry is extremely varied, with hand-spun and hand-woven textiles sectors at one end of the spectrum, with the capital-intensive sophisticated mills sector at the other end. The fundamental strength of the textile industry in India is its strong production base of a wide range of fibre/yarns from natural fibres like cotton, jute, silk and wool, to synthetic/man-made fibres like polyester, viscose, nylon and acrylic.

The decentralised power looms/ hosiery and knitting sector form the largest component of the textiles sector. The close linkage of textiles industry to agriculture (for raw materials such as cotton) and the ancient culture and traditions of the country in terms of textiles makes it unique in comparison to other industries in the country. India's textiles industry has a capacity to produce a wide variety of products suitable for different market segments, both within India and across the world.

Market Size

The Indian textile and apparel industry is expected to grow at 10% CAGR from 2019-20 to reach US\$ 190 billion by 2025-26. India has a 4.6% share of the global trade in textiles and apparel. Moreover, India is the world's 3rd largest exporter of Textiles and Apparel. India ranks among the top five global exporters in several textile categories, with exports expected to reach US\$ 65 billion by FY 2026.

The textiles and apparel industry contributes 2.3% to the country's GDP, 13% to industrial production and 12% to exports. The textile industry in India is predicted to double its contribution to the GDP, rising from 2.3% to approximately 5% by the end of this decade.

The Manufacturing of Textiles Index for the month of August 2023 is 106.9 which has shown a growth of 1.6 % as compared to August 2022. The Indian Technical Textile market has a huge potential of a 10% growth rate, increased penetration level of 9-10% and is the 5th largest technical textiles market in the world. India's sportech industry is estimated around US\$ 1.17 million in 2022-23.

The Indian Medical Textiles market for drapes and gowns is around US\$ 9.71 million in 2022 and is expected to grow at 15% to reach US\$ 22.45 million by 2027.

The Indian composites market is expected to reach an estimated value of US\$ 1.9 billion by 2026 with a CAGR of 16.3% from 2021 to 2026 and the Indian consumption of composite materials will touch 7,68,200 tonnes in 2027.

India is the world's largest producer of cotton. In the first advances, the agriculture ministry projected cotton output for 2023-24 at 31.6 million bales. According to the Cotton Association of India (CAI), the total availability of cotton in the 2023-24 season has been pegged at 34.6 million bales, against 31.1 million bales of domestic demand, including 28 million bales for mills, 1.5 million for small-scale industries, and 1.6 million bales for non-mills. Cotton production in India is projected to reach 7.2 million tonnes (~43 million bales of 170 kg each) by 2030, driven by increasing demand from consumers. It is expected to surpass US\$ 30 billion by 2027, with an estimated 4.6-4.9% share globally.

In 2022-23, the production of fibre in India stood at 2.15 million tonnes. While for yarn, the production stood at 5,185 million kgs during the same period. Natural fibres are regarded as the backbone of the Indian textile industry, which is expected to grow from US\$ 138 billion to US\$ 195 billion by 2025.

Exports for 247 technical textile items stood at Rs. 5,946 crore (US\$ 715.48 million) between April-June (2023-24).

Road ahead

The future of the Indian textiles industry looks promising, buoyed by strong domestic consumption as well as export demand. India is working on various major initiatives to boost its technical textile industry. Owing to the pandemic, the demand for technical textiles in the form of PPE suits and equipment is on the rise. The government is supporting the sector through funding and machinery sponsoring.

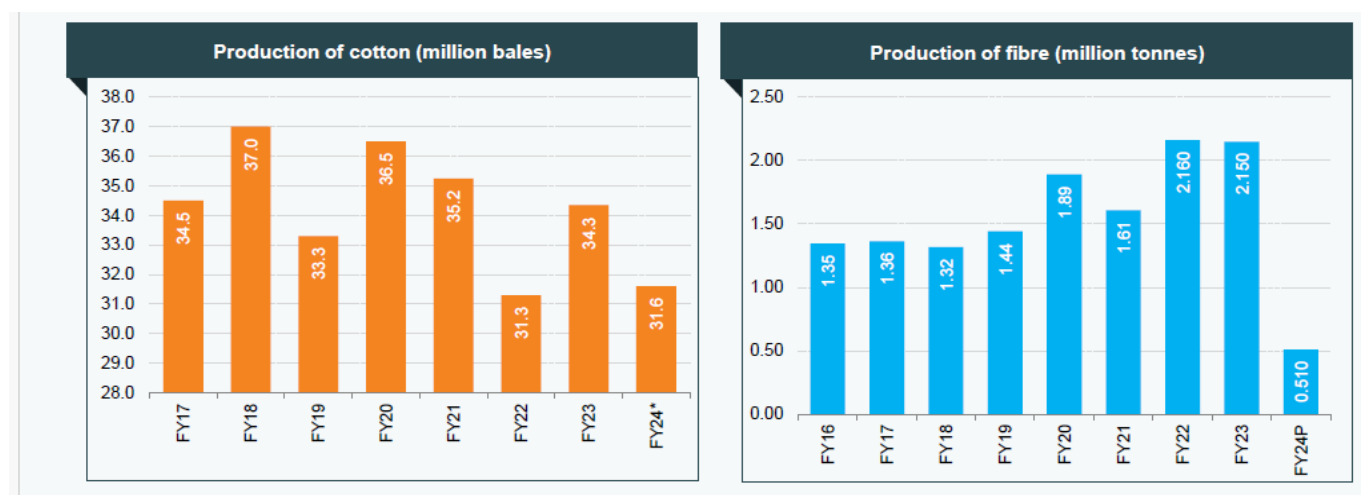

Top players in the sector are achieving sustainability in their products by manufacturing textiles that use natural recyclable materials. With consumerism and disposable income on the rise, the retail sector has experienced a rapid growth in the past

decade with the entry of several international players into the Indian market. The growth in textiles will be driven by growing household income, increasing population and increasing demand by sectors like housing, hospitality, healthcare, etc.

The technical textiles market for automotive textiles is projected to increase to US\$ 3.7 billion by 2027, from US\$ 2.4 billion in 2020. Similarly, the industrial textiles market is likely to increase at an 8% CAGR from US\$ 2 billion in 2020 to US\$ 3.3 billion in 2027. BUSINESS STRATEGY / APPROACH TO MARKETING

To develop export opportunities for our products

Currently, we are not directly exporting our products but we plan to expand our operations globally to strengthen our product infrastructure and overall manufacturing capabilities. India is one of the major exporter of Textile yarns while developed economies. Our product portfolio is primarily focused on offering differentiated products based on customer's requirements. Through a combination of increased capacities, reduced costs, wider range of products and services adhering to global standards, marketing initiatives, competitive pricing and more efficient use of our resources, we intend to expand our global footprint and become a preferred exporter.

Enhanced focus on efficiency, cost and return on capital

We intend to continue to improve the efficiency of our operations, reduce costs, improve margins and enhance the efficiency of capital employed thereby increasing the return on our capital, while still focusing on sustainable growth. We will continue to leverage technology for better demand planning, replenishment and in season management activities. This will help us improve sales and sell through, allowing us to increase sales and minimize markdowns on our inventory. These actions are expected to improve margins, reduce costs and also reduce our overall inventory levels. With a strong focus on cash generation, we are also rationalizing and reducing our exposure to customer segments and channels that require us to maintain high levels of inventory or have longer payment cycles. We believe our focus on costs, network efficiency and asset turns will help us improve our profitability and return on capital employed.

Focus on Value Added Products

We intend to continue innovation in Design and product development of Yarns with more focus on cutting-edge technology which provides better functionality & aesthetics on account of its superior quality. We are also intent to focus on providing sustainable range of Eco-friendly yarns with Global Recycle Standard (GRS) certified Polyester & natural fibers.

Given that raw material expenses constitute a significant portion of our overall cost, we benefit majorly from a spread out and diversified supplier base.

Cotton being a natural agricultural & seasonal product, the purchase of cotton for the consumption in spinning industry during the whole year is concentrated to initial six months after the crop is harvested in Sept – October every year. A team of highly experienced agricultural professional engaged in various cotton producing station since prior to crop harvest. The quality of cotton fibre, which mainly depends on soil fertility, favourable rain & humidity, attack of insects during the growing period, are closely monitored in different demographic zones. The purchase decision of cotton bales are thus taken after reviewing availability, quality, practices of the ginning mills where this agricultural product cotton is transformed suitable for industrial use in Spinning Industry. This enables us to negotiate favorable terms and even avail consistent quality. Additionally, we believe that our diversified supplier base helps us in minimizing supplier risk on account of low supplier dependency.

We do not have any long-term contracts with any of our raw material suppliers, however, we have maintained long-term relationships with our major suppliers. We believe our strong relationships with our raw material suppliers enable us to obtain good quality raw materials within the required timelines. The final cost of our products is dependent on our ability to source good quality raw materials at acceptable prices and to maintain a stable and sufficient supply of our raw materials. To this effect, we also maintain a robust database of our suppliers. We have a stringent vendor qualification process which enables us to keep a periodic check on our suppliers with regard to the quality of materials supplied and the corresponding prices. We use these details for negotiating purchases in the future and for quality claims, which we believe is a very important aspect of our business operations.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF VARDHMAN POLYTEX LIMITED

Report on the Audit of the Financial Statements

Qualified Opinion

We have audited the accompanying financial statements of **VARDHMAN POLYTEX LIMITED** ("the Company"), which comprise the Balance Sheet as at March 31, 2024, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended, and notes to the financial statement, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, except for the effects of the matter stated in the "Basis for Qualified Opinion" section of this report, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Qualified opinion

Note No. 49 of the Ind AS financial statements regarding crediting a profit of Rs 396.44 Lacs due on payment of FCCB liability to the statement of profit & loss during the year ended March 31, 2017 which should have been credited in the statement of profit & loss on payment of FCCB liability which is still outstanding to the tune of 216,116 USD as on March 31, 2024 is not in compliance with the requirements of para 27 of the Ind AS 1- Presentation of Financial Statements w.r.t. preparation of financial statements on accrual basis. Consequently, the profit and loss has been overstated by the above mentioned amount. The company has settled the matter with Axis bank where in a payment plan has been agreed (Final Payment date being 30th September, 2024).

We further report that, had the impact of our observations made in para above been considered, the net loss and the net worth, for the period ended, would have increased and decreased respectively by Rs. 396.44 Lacs.

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Ind AS Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion on the Ind AS financial statements.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Ind AS financial statements for the financial year ended March 31, 2024. These matters were addressed in the context of our audit of the Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the Ind AS financial statements section of our report, including in relation to this matter. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Ind AS financial statements. The results of our audit procedures, including the procedures performed to address the matter below, provide the basis for our audit opinion on the accompanying Ind AS financial statements.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion

and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance and Shareholder's Information, but does not include the Ind AS financial statements and our auditor's report thereon.

Vardhman Polytex Limited

Our opinion on the Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management and Those Charged with Governance for the Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. The respective Management and Board of Directors of the companies are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, the respective Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management and Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users, taken on the basis of these financial statements.

As part of an audit in accordance with SA's, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the Company of which we are the independent auditors to express an opinion on the Statement. We are responsible for the direction, supervision and performance of the audit of the financial information of the Company of which we are the independent auditors.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide to those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

1A Significant accounting policies

a) Statement of compliance & Basis of preparation & presentation

The financial statements are prepared in accordance with and in compliance, in all material aspects, with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the "Act") read along with Companies (Indian Accounting Standards) Rules, as amended and other provisions of the Act. The presentation of the Financial Statements is based on Ind AS Schedule III of the Companies Act, 2013. The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period.

b) Use of estimates

The preparation of financial statements in conformity with Indian GAAP, which requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

c) Revenue recognition

Revenue is recognised at fair value of the consideration received or receivable. The amount disclosed as revenue is inclusive of and net of returns, trade discounts, Goods & Service Tax related taxes and amount collected on behalf of third parties.

The company recognizes revenue when the amount of revenue can be measured reliably and it is probable that the economic benefits associated with the transaction will flow to the entity.

i) Sale of goods

Revenue from sale of goods is recognized when significant risk and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated cost can be reliably estimated and there is no continuing effective control or managerial involvement with the goods and the amount of revenue can be measured reliably. Revenue is recognized in respect of export sales on the basis of bill of lading.

ii) Export Incentives

Revenue in respect of export incentives / benefits are accounted for on post export basis.

iii) Dividends

Revenue in respect of dividends is recognized when the shareholders' right to receive payment is established by the balance sheet date.

iv) Interest

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

v) Insurance Claim

Claims with insurance companies are accounted on accrual basis to the extent, no significant uncertainty exists and these are measurable and ultimate collection is reasonably certain.

d) Inventories

Items of inventories are measured at lower of cost and net realizable value after providing for obsolescence. Cost of inventories comprises of cost of purchase, conversion and other costs including manufacturing overheads net of recoverable taxes incurred in bringing them to their respective present location and condition. The cost in respect of various items of inventory is computed as under:

- i. Stores, spares and raw materials are valued at lower of historical cost or net realizable value. However materials & other items held for use in the production of inventories are not written below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.
- ii. Work in progress is valued at raw material cost plus conversion cost depending upon the stage of completion.
- iii. Finished goods are valued at lower of historical cost or net realizable value. Cost of inventories comprises of cost of purchase, cost of conversion and other costs incurred in bringing them to their respective present location and condition. By products are valued at net realizable value.
- iv. Raw material valuation is determined on the basis of weighted average method.

e) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

I. Initial recognition and measurement

On initial recognition, all the financial assets and liabilities are recognized at their fair value plus or minus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability except financial asset or financial liability measured at fair value through profit or loss account. Transaction costs of financial asset and liabilities carried at fair value through profit and loss are immediately recognized in the Statement of Profit or Loss.

II. Subsequent Measurement (Non Derivative Financial Instrument)

a) Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified date to cash flows that are solely payments on principal and interest on the principal amount outstanding.

b) Financial Asset At Fair Value Through Other Comprehensive Income (FVTOCI)

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

c) Financial Assets At Fair Value Through Profit or Loss (FVTPL)

A financial asset is measured at fair value through profit and loss unless it is measured at amortized cost or at fair value through other comprehensive income.

d) Financial Liabilities

The financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

e) Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the company's obligations are discharged, cancelled or have expired. An exchange between with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

f) Property, plant and equipment

Land is carried at cost and all other items of property plant, equipments and fixtures are stated at cost less accumulated depreciation. The cost of property, plant and equipment includes

- 1) its purchase price including import duties and non refundable taxes after reducing trade discount and rebate if any.
- 2) any attributable expenditure directly attributable to bring an assets to the location and the working condition for its intended use.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful lives.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Property that is held for long-term rental yields or for capital appreciation or both, and that is not used in the production of goods and services or for the administrative purposes is classified as investment property. Investment property is measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. Subsequent expenditure related to investment properties are added to its book value only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. Investment properties are depreciated using the straight line method over the estimated useful lives.

g) Intangible assets

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over expected useful life on a straight line basis from the date they are available for use.

h) Impairment of assets

I. FINANCIAL ASSETS

The company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss.

Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets expected credit losses are measured at an amount equal to the 12 month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognized as an impairment gain or loss in statement of profit or loss.

II. Non-Financial Assets

Intangible assets and property, plant and equipment

Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for cash generating unit to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the statement of profit and loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net off any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior year.

i) Foreign exchange transactions/translation

a. Initial recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

b. Conversion

Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction; and non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

c. Exchange Differences

Exchange differences arising on a monetary item that, in substance, form part of the company's net investment in a non-integral foreign operation is accumulated in a foreign currency translation reserve in the financial statements until the disposal of the net investment, at which time they are recognized as income or as an expense.

Exchange differences arising on the settlement of monetary items not covered above, or on reporting such monetary items of company at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognized as income or as expenses in the year in which they arise.

d. Forward exchange contracts not intended for trading or speculation purposes

The premium or discount arising at the inception of forward exchange contracts is amortized as expense or income over the life of the contract. Exchange differences on such contracts are recognized in the statement of profit and loss in the year in which the exchange rates change. Any profit or loss arising on cancellation or renewal of forward exchange contract is recognized as income or as expense for the year.

j) Employee benefits

i. Short Term Employee Benefits

Short Term Employee Benefits are recognized as an expense on an undiscounted basis in the statement of Profit and loss of the year in which the related service is rendered.

ii. Post Employee Benefits

A) Defined Contribution Plans

i. Provident Fund & ESI

The company makes contribution to Statutory Provident Fund and Employee State Insurance in accordance with Employees Provident Fund and Miscellaneous Provisions Act, 1952 and Employee State Insurance Act, 1948 which is a defined contribution plan and contribution paid or payable is recognized as an expense in the period in which services are rendered by the employee.

B) Defined Benefit Plans

Gratuity

The company provides for gratuity, a defined benefit retirement plan ("The Gratuity Plan") covering eligible employees of the company. The gratuity plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the company.

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- remeasurement

The Company presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

A liability for a termination benefit is recognised at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognises any related restructuring costs.

k) Taxes on income

Income tax expense comprises current tax and deferred tax. Income tax expense is recognized in net profit in the Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity or other comprehensive income, in which case, it is also recognized in equity or other comprehensive income respectively.

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date.

Deferred tax is recognized in respect of temporary differences arising between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes (including those arising from consolidation adjustments such as unrealized profit on inventory etc.). Deferred tax assets are recognized for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized; such reductions are reversed when the probability of future taxable profits improves.

Unrecognized deferred tax assets are reassessed at each reporting date and recognized to the extent that it has become probable that future taxable profits will be available against which they can be used.

l) Government grants and subsidies

Government grants are not recognised until there is reasonable assurance that the Company will comply with the conditions attaching to them and that the grants will be received. Government grants are recognised in profit or loss on a systematic basis over the periods in which the Company recognises as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Company should purchase, construct or otherwise acquire non-current assets are recognised as deferred revenue in the balance sheet and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets. Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Company with no future related costs are recognised in profit or loss in the period in which they become receivable.

m) Borrowing cost

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

n) Provisions, contingent liabilities and contingent assets

A provision is recognized when there is a present obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation. A contingent liability is recognized for:

- i. a present obligation that arises from past events but is not recognized as a provision because either the possibility that an outflow of resources embodying economic benefits will be required to settle the obligation is remote or a reliable estimate of the amount of the obligation cannot be made; and
- ii. a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company. Contingent assets are neither accounted for nor disclosed in the financial statements.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

o) Earning per share

Basic earnings per share are calculated by dividing the net profit for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

p) Cash and cash equivalents

Cash and cash equivalents comprises cash at bank and in hand, including offsetting bank overdrafts, and short-term highly liquid investments that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in fair value and have a maturity of three months or less from the acquisition date.

46. Financial Risk Management

The principal financial assets of the Company include loans, trade and other receivables, and cash and bank balances that derive directly from its operations. The principal financial liabilities of the company, include loans and borrowings, trade and other payables and the main purpose of these financial liabilities is to finance the day to day operations of the company.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks and that advises on financial risks and the appropriate financial risk governance framework for the Company.

This note explains the risks which the company is exposed to and policies and framework adopted by the company to manage these risks:

Market Risk

Market risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: interest rate risk, currency risk and other price risk, such as equity risk. Financial instruments affected by market risk include loans & borrowings and deposits. The sensitivity analyses in the following sections relate to the position as at 31 March 2024 and 31 March 2023.

(i) Foreign Currency risk management

The company undertakes certain transactions denominated in foreign currencies. Hence, exposures to exchange rate fluctuations arise.

(ii) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates.

As the Company has no significant interest-bearing assets, the income and operating cash flows are substantially independent of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates, which are included in interest bearing loans and borrowings in these financial statements. The company's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

At the reporting date the interest rate profile of the Company's interest bearing financial instrument is at its fair value:

Particulars	As at 31 March 2024	As at 31 March 2023
Variable rate instruments		
Long term borrowings	4,512.71	-
Current maturities of long term debt	2,912.93	42.80
Short term borrowings	193.32	44,705.64

Cash flow sensitivity analysis for variable rate instruments

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. A change of 100 basis points in interest rates for variable rate instruments at the reporting date would have increased/(decreased) profit or loss for the below years by the amounts shown below. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

(₹ in Lakh)

Particulars	As at 31 March 2024	As at 31 March 2023
Increase/ (decrease) in 100 basis point	76.19	447.48

Liquidity Risk

The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Company has outstanding borrowings from Phoenix ARC Private Limited. The Company is passing through a phase of liquidity stress and there is a mismatch in cash flows. Due to this, the capacities of the Company are running at sub-optimal level. The Company is working towards devising a plan which would correct the cash flow mismatch. The Company believes that the Company would be able to generate enough cash inflows to meet its working capital requirements in the medium and long run. The company manages liquidity risk by maintaining adequate reserves, continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

Credit Risk

Credit risk refers to the risk that the counterparty will default on its contractual obligations resulting in financial loss to the company. Credit risk has always been managed by the company through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the company grants credit terms in the normal course of

business. On account of adoption of Ind AS 109, the company uses expected credit loss model to assess the impairment loss or gain. The Company has exposure to credit risk from trade receivable balances on sale of Yarns & Readymade Garments. The Board of Directors,
Vardhman Polytex Ltd.

1. We have reviewed the accompanying statement of unaudited financial results of **Vardhman Polytex Limited** ("the Company") for the quarter ended June 30, 2024 ("the Statement") attached herewith, being submitted by the Company pursuant to the requirements of Regulation 33 of the SEBI (Listing Obligation and disclosure requirements) Regulations, 2015 as amended ("the Listing Regulations").
2. This Statement which is the responsibility of the Company's Management and approved by the Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in the Indian Accounting Standard 34 "Interim Financial reporting" (Ind AS 34) prescribed under Section 133 of the Companies Act, 2013 read with relevant rules issued thereunder and other accounting principles generally accepted in India and in compliance with Regulation 33 of the Listing Regulations. Our responsibility is to express a conclusion on the Statement based on our review.
3. We conducted our review of the Statement in accordance with the standard on Review Engagements (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity," issued by the Institute of Chartered Accountants of India (ICAI). A review of interim financial information consists of making inquiries, primarily of the Company's personnel responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing specified under Section 143(10) of the Companies Act, 2013 and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
4. The company had credited profit of Rs 396.44 lacs due on payment of FCCB liability to the statement of profit & loss during the period ending March 31, 2017. This profit should have been credited in the statement of profit & loss on payment of FCCB liability. As per Note No.2 of the accompanying Financial Results, the Company has settled the matter with Axis bank where in a payment plan has been agreed (Final payment date being 30th November 2024). This matter was also qualified in all the previous limited review/audit reports submitted by us.

5. Based on our review conducted as above, except for the effect of our observation stated in Para 4 above, nothing has come to our attention that causes us to believe that the accompanying statement prepared in accordance with the recognition and measurement principles laid down in the aforesaid Indian Accounting Standard and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in terms of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 as amended including the manner in which it is to be disclosed, or that it contains any material misstatement.

<p>2012-2013</p>	<p>A Notice under section 143(2) read with section 254 of the Income Tax Act, 1961(“Act”) was issued against our Company vide DIN No: ITBA/COM/F/17/2020-21/1028438880(1) dated October 30, 2020. Under this Notice, Hon’ble ITAT, Chandigarh (ITA No. 413/Chd/2017 A.Y. 2012-13 dated December 20, 2019) restored the issues of disallowance of interest expenditure under section 36(1) in respect of investment and advance made for non-business purpose out of interest-bearing funds, Issue of Section 14A of the Act, 1961 and Issue regarding buy back of foreign exchange convertible bonds. Our company was asked to furnish above mentioned evidence/information online electronically on the website of Income Tax Department.</p> <p>Our company made the following submissions:</p> <p><u>Issue of disallowance of interest expenditure u/s 36(1)(iii) in respect of investment and advance made for non-business purpose out of interest bearing funds.:</u></p> <p>The disallowance as worked out in the Assessment order was NIL. The interest disallowance was calculated at Rs .11,18,63,706/- however because of separate disallowance calculated under section 14 A at Rs. 13,57,54,945/- the interest disallowance had been reduced to NIL.</p> <p><u>Issue of Disallowance Under Section 14A of The Income Tax Act:</u></p> <p>Investments were of Rs. 137.42 crores. The Investments in the financial year 2010-2011 were Rs. 132.60 crores and in the financial year 2011-12 were Rs. 137.42 crores with an overall increase of Rs. 4.82 crores. Since the Assessee Company had shown investments amounting Rs. 137.42 crores as on March 31, 2012 and March 31, 2013, disallowance under section 14A had been made as investments have been deemed to earning for dividend income which were not earned/ received in the present case. Our Company further submitted that a suo moto disallowance had been calculated at Rs. 11.62 lakhs while filing the return of income.</p> <p><u>Issue regarding buy back of Foreign Exchange Convertible Bonds:</u></p> <p>Hon’ble ITAT had directed that the nature of buyback proceeds must be verified as either revenue or capital in nature. The fact had been verified that buy back is a capital receipt as the FCCB proceeds have been used for purchasing capital assets. The loan was for expansion of plant and machinery and for acquisition of foreign asset being of permanent and capital nature and</p>	<p>Open</p>

	<p>was an apparatus to earn enduring benefits over a long period of time. Therefore, the discounting / waiver of FCCB bonds on buy back is a capital receipt and has not been included in taxable income of the Company because the waiver/ Profit on buyback does not changes the nature of receipt and the same cannot be termed as revenue receipt.</p> <p>As on date no new notice/intimation has been received and the said E Proceeding is Open.</p>

RESTRICTION ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

There are two routes through which foreign investors may invest in India. One is the 'automatic route', where no government approval is required under Indian foreign exchange laws to make an investment as long as it is within prescribed thresholds for the relevant sector. The other route is the 'government route', where an approval is required under foreign exchange laws from the relevant industry regulator, prior to the investment.

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise way such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the FIPB. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the Department of Industrial Policy and Promotion), Ministry of Finance, Department of Economic Affairs, FIPB section, through a memorandum dated June 5, 2017, has notified the specific ministries handling relevant sectors

The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated FDI Policy Circular of 2020 ('**FDI Circular 2020**'), which, with effect from October 15, 2020, consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Circular 2020 will be valid until the DPIIT issues an updated circular.

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict, the relevant notification under Foreign Exchange Management (Non-Debt Instruments) Rules, 2019 will prevail. The payment of inward remittance and reporting requirements are stipulated under the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 issued by RBI. The FDI Circular 2020, issued by the DPIIT, consolidates the policy framework in place as on October 15, 2020, and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The transfer of shares between an Indian resident and a non-resident does not require the prior approval of RBI, provided that:

1. The activities of the investee company falls under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the SEBI (SAST) Regulations;
2. The non- resident shareholding is within the sectoral limits under the FDI Policy; and
3. The pricing is in accordance with the guidelines prescribed by SEBI and RBI.

No investment under the FDI route (i.e., any investment which would result in the investor holding 10% or more of the fully diluted paid-up equity share capital of the Company or any FDI investment for which an approval from the government was taken in the past) will be allowed in the Issue unless such application is accompanied with necessary approval or covered under a pre-existing approval from the government. It will be the sole responsibility of the investors to ensure that the necessary approval or the pre-existing approval from the government is valid to make any investment in the Issue.

The Company will not be responsible for any allotments made by relying on such approvals. Please also note that pursuant to Circular no. 14 dated December 16, 2003, issued by RBI, Overseas Corporate Bodies have been derecognized as an eligible class of investors and RBI has subsequently issued the Foreign Exchange Management (Withdrawal of General Permission to Overseas Corporate Bodies (OCBs)) Regulations, 2003. Any Investor being an OCB is required not to be under the adverse notice of RBI and in order to apply for this issue as an incorporated non-resident must do so in accordance with the FDI Circular 2020 and Foreign Exchange Management (Non-Debt Instrument) Rules, 2019. Further, while investing in the Issue, the Investors are deemed to have obtained the necessary approvals, as required, under applicable laws and the obligation to obtain such approvals shall be upon the Investors. Our Company shall not be under an obligation to obtain any approval under any of the applicable laws on behalf of the Investors and shall not be liable in case of failure on the part of the Investors to obtain such approvals.

The above information is given for the benefit of the Applicants/Investors. Our Company is not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of the Letter of Offer. Investors are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.
